The long talked of new Limited rains on "The North-Western Line" C., St. P., M. & O. Ry. to run be tween Minneapolis, St. Paul and Chicago, are now in service.

Something New in Car

Building.

The press as well as the people who have inspected these trains admit that they represent the acme of the car builders art. The engine is after the famous 999 pattern, and from end to end the train is vestibuled with broad plate glass vestibules which completely enclose the platform and add greatly to the beauty as well as to the comfort of the train.

If you are going east why not pat ronize the new "North-Western Lim ited." Excursion or other classes of tickets are good on this train and no extra fares are charged for the

superior accommodations. to your home agent or address T. W. Teasdale, General Passenger Agent, St. Paul, who will be pleased to forward you pamphlet giving full description of these new trains, there is nothing to equal them in car con struction-not even the wonderful trains on exhibition at the World's
